AL-Series
Cylindrical Locks
Put Your Trust in the Name You Know

For more than 90 years Schlage® has been providing innovative security solutions for schools, hospitals, hotels, condominiums and a host of other commercial buildings. Today, Schlage is at the forefront of cutting-edge technology including wireless security, access control systems including readers, credentials and biometrics. With a wide range of products, styles and finishes, Schlage has what you need no matter how demanding your project specifications may be. And, we stand behind every product we make with the best after-sales service in the business. It’s this commitment to design, performance and technology that ensures you can stand behind our products too.

Be sure to ask your SSC representative to tell you about Custom Solutions by Ingersoll Rand Security Technologies. To learn more visit securitytechnologies.ingersollrand.com.
Real Security is Knowing Exactly What You Want and Getting It

When you know exactly what you want, you don’t want to waste time finding out whether it meets your project specifications. That’s why we offer the world’s largest team of hardware specification writers to help you and your clients turn your vision into reality. And when it comes to products, our commercial suiting options, wide variety of lever designs and rich selection of finishes give you the tools you need to make your projects perfect. You know what you want. With Schlage you can be sure you’ll get it.

Safety, Security and Confidence

When you choose a Schlage lock you can be sure you’ve done the job right the first time. After all, our products are among the most durable and dependable on the market today. Our locks are easy to install, and simple to repair and maintain. That means fewer callbacks for you and total safety and security for your customers.

Rev. 3/13
Dependable performance for high traffic commercial applications.

At Schlage we know that every product you specify has to stand up to constant use, while meeting your needs for security at every level. Our AL-Series locks are designed to deliver ADA compliant accessibility and constant, reliable performance. The AL-Series is best for buildings with medium to high traffic flow, such as interior office doors, banks, retail spaces and hotel guest areas. With a Grade 2 ANSI rating, and styles and finishes to suit your building’s design, the AL-Series fits right where you need it.

Pictured here: Jupiter lever shown in 626 Satin Chrome

We don’t compromise on security.

The safety and security of your clients’ buildings is something we take very seriously. That’s why every Schlage lock and deadbolt undergoes intensive testing to determine its ANSI grade level:

- Cycle tests
- Door impact tests
- Bolt strength tests
- Resistance tests
- Warped door tests

We pay attention to these details so you can focus on creating a functional and aesthetically pleasing environment for your clients. In fact, every one of our AL-Series locks meets ANSI Grade 2 standards for safety.
The lever that looks as good as it performs.

- Cold-rolled steel, machined and threaded hubs, and locking nuts prevent loosening of the lockset by securely bolting chassis to the door
- Large diameter of mounting plate and rose covers new ANSI hollow metal door cutout
- Patented door range adjuster allows quick and easy adjustment for doors ranging from 1 3/8” to 1 7/8” (35 mm to 48 mm) thick

Door Handing

All Schlage locks are reversible. Hand information is necessary to ensure proper cylinder orientation in keyed functions, and finish of latchbolt and strike for locks that are to be installed on reverse bevel doors. Follow the diagram to correctly determine the hand of the door.

ADA-Compliant Products

In compliance with the American National Standards Institute (ANSI A117.1) and the Americans with Disabilities Act (ADA), Schlage Lock Company offers a wide selection of locks designed for the needs of the physically challenged. This act is designed to provide protection for people with disabilities.

The intent of ADA is that owners of certain types of buildings must remove barriers and provide people with disabilities with access equal to, or similar to, that available to the general public.

Product information and specifications contained in this catalog are subject to change without notice. Please consult the factory.
Lock Functions | ANSI A156.2 Series 4000 Grade 2

**Non-Keyed Functions**

**SCHLAGE ANSI**

**AL10S F75**
- **Passage Latch**
  - Both levers always unlocked.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI**

**AL25D - Exit Lock**
- Blank plate outside.
- Inside lever always unlocked.
- Inside lever always free for immediate egress.
- Specify door thickness.

**SCHLAGE ANSI**

**AL40S F76**
- **Bath/Bedroom Privacy Lock**
  - Push-button locking.
  - Can be unlocked from outside with small screwdriver.
  - Turn inside lever or close door to release button.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI**

**AL44S - Hospital Privacy Lock**
- Push-button locking.
- Unlock from outside by turning emergency turn-button.
- Turn inside lever or close door to release button.
- Inside lever always free for immediate egress.
**Lock Functions | ANSI A156.2 Series 4000 Grade 2**

**Keyed Functions**

**SCHLAGE ANSI AL170**

- **Single Dummy Trim**
  - Single dummy trim for one side of door.
  - Used for door pull or as matching inactive trim.

**SCHLAGE ANSI AL50PD F82**

- **Entrance/Office Lock**
  - Push-button locking.
  - Push-button locks outside lever until it is unlocked with a key or by rotating the inside lever.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI AL53PD F109**

- **Entrance Lock**
  - Turn/push-button locking: Pushing and turning button locks outside lever, requiring use of a key until the button is manually unlocked.
  - Push-button locking: Push-button locks the outside lever until it is unlocked by key or by turning the inside lever.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI AL70PD F84**

- **Classroom Lock**
  - Outside lever is locked and unlocked by key.
  - Inside lever is always unlocked.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI AL80PD F86**

- **Storeroom Lock**
  - Outside lever is fixed.
  - Entrance by key only.
  - Inside lever is always unlocked.
  - Inside lever always free for immediate egress.

**SCHLAGE ANSI AL85PD F93**

- **Faculty Restroom Lock (with Indicator Cylinder)**
  - Outside lever is fixed.
  - Entrance by key only.
  - Push button on inside lever activates visual occupancy indicator, allowing only the emergency masterkey to operate.
  - Rotate inside lever or close door to release visual occupancy indicator.
  - Rotation of inside spanner button provides lockout feature by keeping indicator thrown.
  - Inside lever always free for immediate egress.
Cylinders and Key Systems

Protect New Key Systems with Everest 29
Schlage can help you design a system that can grow and change along with your needs, allowing you the flexibility to upgrade your security without the need to replace all your cylinders.

Upgrade Existing Classic Key Systems with Primus XP
Schlage offers key system solutions that are ideal for upgrading an existing key system to control key management. Our patent-protected cylinders help prevent unauthorized duplication and can be integrated into virtually any existing system.
Standard Cylinders

Standard cylinders are available in Classic keyways or in patented Everest 29 keyways. Specify keyway to differentiate between Everest 29 and Classic. Example: C (Classic) vs. S123 (Everest 29).

Standard Cylinders - Options

- Conventional 6-Pin cylinder (standard)
- Primus high security cylinder
- Primus UL437 Listed high security cylinder
- Conventional 6-Pin AL85 function with occupancy indicator

Available 606 and 626 finish only. Everest 29 S123 keyway standard.

Primus XP Access Control and High Security Cylinders

Primus XP access control and high security cylinders are available to add patented key control and varying degrees of geographical exclusivity to most Schlage 6-pin key systems, whether Everest 29 or Classic keyways.

In addition to a conventional pin tumbler mechanism, Primus cylinders incorporate a patented finger pin and sidebar design providing a “dual-locking” cylinder that is virtually pick-proof. Resistance to drilling and other physical attack is optional by specifying 20-500 Series UL437 Listed cylinders.

Classic Primus XP cylinders are recommended for upgrading existing Classic key systems. Due to its extended patent life, the newly designed Everest 29 Primus XP is recommended for new key systems and for upgrading existing Everest key systems. Specify keyway to differentiate between Everest 29 and Classic. Example: C or CP (Classic) vs. S123 (Everest 29).

Visit SecurityTechnologies.IngersollRand.com for more information.
Full Size Interchangeable Core

Schlage interchangeable core (IC) locksets allow immediate rekeying at the door simply by using the special control key to replace the core in seconds.

IC locksets are available in Saturn design only.

Full Size Core

FSIC can be integrated into any 5 or 6-pin Schlage key system.

Full Size Interchangeable Cores - Options
(For JD Suffix Locksets)
- Conventional core
- Primus XP high security core

Available 606 and 626 finish only. Everest 29 S123 keyway standard.

Small Format Interchangeable Core

The SFIC version is designed for Schlage Everest 29 R Family restricted keyway cores and is also completely compatible with Best®, Falcon and other competitive small format cores.

Small Format Core

Small Format Interchangeable Cores - Options
(For BD Suffix Locksets)
- 7-Pin uncombined Everest 29 R Family restricted keyways
- 7-Pin combined Everest 29 R Family restricted keyways
- 6-pin uncombined Falcon / Best keyways
- 7-pin uncombined Falcon / Best keyways
- Disposable plastic construction core

Available 606 and 626 finish only. Specify keyway for existing systems.

Available 606 and 626 finish only. Specify keyway for existing systems.
80-033 and 80-043 cores are available in A, D, E, F, G, H, J, K, L, and M keyways.
80-036 and 80-037 restricted keyway cores require a letter of authorization from the end user. Schlage assigns the keyway when establishing new Everest 29 restricted key systems.
IC Conversion Kits

It is easy to convert standard AL Series locksets to accept Schlage full size interchangeable cores by changing the lever and adding the parts shown.

Conversion to SFIC requires different components, as well as dismantling the lockset to replace internal parts. No kits are available for this purpose.

Interchangeable Core Components - Options

- Conversion kit: Driver, retainer, lever, core *
- Conversion kit: Driver, retainer, lever
- Driver, retainer
- Lever only (Saturn)*
- IC Installation Tool

*Specify finish.

IC Installation Tool
M504-413
Latches

AL-Series latches are adjustable for flat or beveled edge doors. Latches and strikes are furnished in brass, bronze, or chrome finishes compatible with lock trim. When ordering separately, specify quantity, part number, and finish. Standard latches shown in bold type.

Rabbeted Latch and Strike Kit

Rabbeted latch and strike kit finishes: 606, 626. This kit adapts square corner latches and strikes for 1/2" (13 mm) rabbeted door and frame preparations.

Reinforcement Kit

37-001

Kit Includes:

Reinforcement

A501-566 for 1\(\frac{3}{4}\") doors or A501-565 for 1\(\frac{3}{8}\") doors

Door Reinforcement

Reinforcing unit is required to reinforce and help prevent the collapse of hollow metal doors when locksets are tightly mounted. This kit should be used with long backsets for AL-Series lock installations in hollow metal doors to prevent lateral movement of the latchbolt. Specify door thickness, 1\(\frac{3}{8}\") (35 mm) or 1\(\frac{3}{4}\") (44 mm), when ordering reinforcement kits.
Specifications

**Handing:**
Non-handed.

**Door Thickness:**
1⅜“ to 1⅞” (35 mm to 48 mm) standard.
2” (51 mm) optional.

**Backset:**
2⅜” (70 mm) standard. 2Ⅲ⁄₄” (60 mm), 3Ⅲ⁄₄” (95 mm) and 5” (127 mm) optional.

**Front:**
Steel. 2⅓⁄₄“ x 1⅛” square corner, beveled, for 2⅜” backset standard. Optional 1” square corner, 1” radius corner, and non-UL drive-in / round face. For availability with specific backsets, see page 16.

**Lock Chassis:**
Steel, zinc dichromated for corrosion resistance

**Latch Bolt:**
Brass, chrome plated, ½” throw, deadlocking on keyed and exterior functions.

**Exposed Trim:**
Wrought brass and bronze. Levers are pressure cast zinc, plated to match finish symbols.

**Strike:**
ANSI curved lip strike 4⅞“ x 1⅛” x 1⅛” lip to center standard. Optional strikes, lip lengths and ANSI wrought strike box available. See page 17.

**Cylinder & Keys:**
6-pin patented Everest 29 S123 keyway standard with two nickel silver keys per lock.

**Keying Options:**
Interchangeable core and Primus’ high security cylinders. Master keying, grand master keying, and construction keying.

**Warranty:**
Three-year limited.

Certifications

**ANSI:**
Meets or exceeds A156.2 Series 4000, Grade 2 strength and operational requirements.
Meets A117.1 Accessibility Code.

**Federal:**
Meets FF-H-106C.

**California State Reference Code:**
(Formerly Title 19, California State Fire Marshal Standard)
All levers with a return to door of ½” (64mm) or less comply.

**UL / cUL:**
All locks listed for A label single doors, 4’ x 8’.
Letter F and UL symbol on latch front indicate listing.

**ADA Compliant:**
Schlage Lock Company offers a wide selection of locks designed to meet the Americans With Disabilities Act.
Ingersoll Rand (NYSE:IR) advances the quality of life by creating and sustaining safe, comfortable and efficient environments. Our people and our family of brands—including Club Car®, Ingersoll Rand®, Schlage®, Thermo King® and Trane®—work together to enhance the quality and comfort of air in homes and buildings; transport and protect food and perishables; secure homes and commercial properties; and increase industrial productivity and efficiency. Schlage is the leader in security devices, trusted for 90 years, spanning both the commercial and residential markets. Ingersoll Rand is a $14 billion global business committed to a world of sustainable progress and enduring results.
